ACT, 2602**

**Computer Lab  
Signadou Building**

### **WHEN?**

**For six Fridays  
commencing on the**

**11th January 2008  
at 12.30pm.**

**Light lunch provided.**

This ACE Program aims to build a strong community of practice to support the development of skills that will assist adult learners to successfully engage in more formal learning.

The content of the course will introduce the participants to the importance of effective communication, report writing, formal presentation styles and the appropriate use of multi-media and web-based information.

The course provides opportunities to learn to be at ease with computer technology and use it in ways which enable creative, critical, satisfying and enjoyable participation with others and for others.

In particular, the course will focus on:

- Computer skills
- Communication and critical thinking skills, and
- Interpersonal skills

Participants will create multi-media stories of their own family or of the history of a famous Australian family of their choice.
